GOOSENECK SERIES

High-end goosenecks professionally manufactured and customized to suit your product and application needs.

Product Introduction:

Sound Plug's ability to produce high-end goosenecks that keep their shape, are durable, are silent and are highly recoil resistant has earned us a reputation as a gooseneck supplier of choice for many of the world's most discerning customers. We have a dedicated team that is solely charged with gooseneck research and development, design and production. Our gooseneck team members love what they do and they take the art of gooseneck design and production with utmost pride and seriousness. Sound Plug goosenecks, masterfully crafted to suit your needs.

GOOSENECK LAMP

Low power consumption. High luminous efficacy. Low voltage. Sound Plug LED lights are environmentally friendly and highly efficient. High intensity light. Hospital-grade color rendering index. Natural white light color temperature. 120 degree wide viewing angle. Sound Plug LED lights cover more viewing area and let you see clearer details and more vivid colors. IEC-62471 LED blue-light hazard protection compliance ensures all Sound Plug LED lights meet international standards on protecting your eyes from harmful optical radiation.

3 PCS LED Test Standard

CIE 70 The Measurement of Absolute Luminous Intensity Distributions.
CIE84-1989 The Measurement of Luminous Flux.
CIE63-1984 The Spectroradiometric Measurement of Light Sources.
IESNA TM-16-05 IESNA Technical Memorandum on Light Emitting Diode (LED) Sources and systems

1.Input Power： 0.72W
2.Voltage： 12V
3.Amperage： 60mA
4.Peak Intensity： 17.5Candela
5.Luminous Efficacy 63.88%
6.Color rendering index： 82%
7.Correlated color temperature： 5739K

Certification：CE、EN-62471、RoHS
